

# EVALUATION REPORT: STARTUP

Date: 2026-02-11

VERDICT	SCORE	STAGE
PENDING	0 / 45	Pre-Seed

## Executive Summary

Your application shows potential in addressing a real problem for early-stage founders, but there are areas that need improvement.

# Detailed Analysis

## TEAM (2.0/5)

Because you have a domain experience gap, with all founders having only 1 year of experience.

■ **To Improve:** Hire a team member with relevant domain expertise.

■ **Risk:** Domain Experience Gap - 'prior\_experience' and 'years\_experience' are low (1 year) for all founders, indicating a lack of reputation in the specific domain.

---

## PROBLEM (3.5/5)

Since you have a high-impact problem, but the current solution is generic LLMs relying on user prompt engineering skills.

■ **To Improve:** Develop a more specific solution that addresses the problem's nuances.

■ **Risk:** Contradiction in urgency (Impact vs. Frequency)

---

## PRODUCT (1.0/5)

Since your product has a generic 'moat' and is easily replicable.

■ **To Improve:** Develop a proprietary solution that differentiates your product from competitors.

■ **Risk:** The product has a generic 'moat' and is easily replicable.

---

## MARKET (2.0/5)

Since your expansion logic is unclear and risky.

■ **To Improve:** Develop a clear and realistic expansion strategy.

■ **Risk:** Non-Sequitur - The beachhead market is 'Early-stage startup owners in MENA' (Business / Tech Startups), but the expansion strategy is unrelated industries such as 'Specialized AI / LegalTech / EdTech'.

---

## TRACTION (0.0/5)

Since you have a 'Zero Signal' with no users, no waitlist, and no revenue.

■ **To Improve:** Develop a clear plan to acquire customers and generate revenue.

■ **Risk:** Found Logic Contradiction: Fake Demand

---

## GTM (1.0/5)

Since your primary channel is 'Word of mouth / Community Direct Sales' with no mechanism explained.

■ **To Improve:** Develop a specific, proactive plan to acquire customers.

---

## BUSINESS (0.0/5)

Since your business model is highly unsustainable and lacks clear unit economics.

■ **To Improve:** Develop a clear and realistic business model.

■■ **Risk:** The 'Fake SaaS' Contradiction (Identity Crisis): Service Agency Disguised as Tech.

---

## VISION (2.0/5)

Since your market analysis reveals a more nuanced reality.

■ **To Improve:** Develop a more realistic vision that aligns with the market analysis.

■■ **Risk:** Wrapper Risk - The startup is trying to boil the ocean by targeting the MENA region immediately without a specific starting niche.

---

## OPERATIONS (1.0/5)

Since your plan is marred by several critical issues.

■ **To Improve:** Address the critical issues in your plan.

■■ **Risk:** Ghost Ship - The startup is raising money but has \$0 monthly burn.

---
