EVALUATION REPORT: STARTUP

VERDICT	SCORE	STAGE
PASS (NOT READY)	15.8 / 45	Pre-Seed

Executive Summary

Your Pre-Seed application shows promise, but it's clear that you're struggling to execute your plan. You have a great problem statement, but your team lacks domain expertise, and your product is easily replicable.

Detailed Analysis

TEAM (2.0/5) | Confidence: Medium

Analysis: The team has some relevant experience in AI engineering, but there are several red flags that prevent a higher score.

• Lack of domain expertise

• Unclear equity split

• Slow execution speed

■ **Fix:** Hire a domain expert to join the team; Clarify the equity split and ensure it's fair

_____

PRODUCT (1.0/5) | Confidence: High

Analysis: The product is easily replicable and lacks clear differentiation, which makes it difficult to stand out in a crowded market.

• Generic wrapper technology

• Lack of clear differentiation

• Scalability mismatch

■ **Fix:** Develop a unique value proposition; Invest in product development to create a clear differentiation

_____

TRACTION (0.0/5) | Confidence: High

Analysis: The startup has a 'Zero Signal' with no users, no waitlist, and no revenue, which indicates a lack of progress and a high risk of failure.

• No users

• No waitlist

• No revenue

■ **Fix:** Develop a marketing strategy to acquire customers; Invest in product development to create a clear value proposition

_____

Top 3 Execution Priorities

1. 1. Fix the team's lack of domain expertise by hiring a domain expert.

2. 2. Develop a unique value proposition for the product.

3. 3. Invest in product development to create a clear differentiation.
